1. Two freight trains loaded with large boxes left the PERIEBERG (M 54/T 70) airfield and headed for MITTENBERGE (M 53/Y 69). A PERIEBERG wood-working factory was continually engaged during the preceding weeks in manufacturing large boxes for the airfield.
2. The units previously stationed at the field had been transferred and only a rear detail remained. Only light antiaircraft guns of about 37 to 45 mm caliber and with very long barrels remained at the field.
3. The rumor that the entire field was to be evacuated may be false, the Soviets having recently stored two million pounds of potatoes at the edge of the field.

4. The airfield was newly occupied by a tank unit. The gasoline containers were being dismantled and it was rumored that they were being hauled to PARCHIM (M 54/T 74). The hangars were also scheduled to be dismantled.
